The range provides an excellent high finish, with a perfect colour pallet for any fair skinned women to feel confident to work with and wear. The light and creamy textures along with Nicola's individually selected colours provide an entirely gorgeous look for any wearer. Plus, most of Nicola's products are multi-functional, as they also include base, contour, and accent colours.

### Foundation

Pride of the pack is Nicola's super smooth skin soufflé foundations, so delicately soft and creamy they adhere perfectly onto the skin. Formulated according to Nicola's combination skin so that it is matte without being dry.

Available in 3 shades : White, Ivory & Porcelain

### Concealer

The thick, heavily pigmented concealer covers imperfections and hides dark circles. It is formulated and infused with grape seed oil, so it conceals and moisturizes skin at the same time. The final effect is everything you've ever wanted from a concealer.

Available in 2 shades : Fair & Natural

### Blush & Contour

Add additional warmth to your skin with a touch of Nicola's dual blush that comes in a soft blusher shade & a shadow enhancer, all in 1 large compact with mirror. Nicola's apricot and blossom-pink colours are just one notch up from natural. For a flattering high cheek bone, softly dust the brown-toned enhancer shade just below your cheekbones.

### Shadow & Base

Keep eyes sweet with Nicola's ultra-finely textured shades that glide on your eyes smoothly. Colours stay on all day without daring to flake or smudge, with the help of her added suede-textured, gold superior eye-base.

Available in 3 shades : Desert Rose, Honey Bronze & Apricot

### Plumping Gloss

Finally, there's nothing hotter than Nicola's wildly shiny, lip-plumping gloss, formulated with chilli extract. Colours include ripe pink and nutmeg. They smell amazing and shimmer subtly. Simply palm it on before you rump-shake the night away ...

Available in 2 shades : Rosebud & Hibiscus
